## Walk & Roll with SchoolPool

# HOW *to* USE THIS ACTIVITY BOOK

Learn how to be a walking, rolling, busing, and carpooling role model! Walking and rolling are healthy, active, and green ways to get around your neighborhood and to school. Carpooling and taking the bus are great ways to share trips in your neighborhood and to school!

It's fun to  
walk and  
roll with my  
family!

King County  
School Pool

King County Metro's SchoolPool program offers education and encouragement to families choosing to walk, roll, take the bus, and carpool to school. This book provides educational and encouragement activities for active and shared modes of transportation.

## What is Rolling?

Rolling as a way to get around can mean many things, like bicycling, using a wheelchair, scooting, skateboarding, or another fun and active wheely way!

### ★ KIDS

---

This book is for you! Your parents and teachers want you to learn safe walking and rolling skills.

Complete these activities with your parents, teachers, or on your own. You will have a lot to teach your parents and teachers, too!

### ★ PARENTS

---

You will decide when your child has the skills and experience needed to safely walk or roll without you or another adult. See the Readiness Checklist on page 43 for some considerations.

Use this guide to begin or continue talking with your child and help them think through smart, life-long walking and rolling safety behaviors.

### ★ TEACHERS

---

You have an important role to play in the classroom and in teaching students about safe and healthy ways to get around.

You can use individual sheets from this book in lesson plans and activities to help your students develop safety skills that will carry them through the rest of their lives.

# WHY WE WALK *and* ROLL

Follow these students on their way to school. Learn why they walk and roll to get to school, the library, and the park!

**MY PARENTS USED TO WALK TO SCHOOL WHEN THEY WERE MY AGE.**

In 1969, **1 IN EVERY 2 KIDS** (that's half or 50%) used to walk or roll to school. Today, less than **1 IN EVERY 6 KIDS** (15%) walks or bikes to school.

**I LIKE WALKING AND ROLLING TO SCHOOL BECAUSE I GET TO HANG OUT WITH MY FRIENDS, AND IT MAKES ME FEEL GOOD!**

Walking **ONE MILE** to and from school each day means I get **TWO-THIRDS** of the recommended **60 MINUTES OF PHYSICAL ACTIVITY** a day.

**WHEN I WALK TO SCHOOL,  
I FEEL FOCUSED AND  
READY TO LEARN!**

After **20 MINUTES OF PHYSICAL ACTIVITY**, students tested better in reading, spelling and math and were more likely to read above their grade level.

**WALKING AND ROLLING  
ARE GOOD FOR THE  
ENVIRONMENT AND  
ARE FUN!**

If half of all students walked or rolled to school, we would save **3.2 BILLION** vehicle miles and **1.5 MILLION** tons of carbon dioxide—equal to keeping more than 250,000 cars off the road for a year.

**I LIVE FURTHER AWAY FROM  
SCHOOL, BUT I CAN STILL HELP!  
I CARPOOL WITH MY FRIEND  
TO HELP REDUCE POLLUTION  
NEAR SCHOOL.**

Parents driving their children just to school make up **1 IN EVERY 10 CAR TRIPS** in the morning, and this number doesn't even include all of the trips parents make when dropping off children on their way to work (NHTS 2017). Carpooling and taking the bus can help reduce traffic and air pollution.

# WHAT ACTIVITIES are INSIDE?

Let's get started!  
Do them in order or  
jump around.  
It's your adventure.

These educational activities and informational sheets for elementary students will introduce families to safe walking and bicycling. Parents, guardians, and children are encouraged to do these activities together!

## WORD MATCHING

Find a word from the Word Bank and match it with its definition. Use each word only once.

Someone who walks or uses a mobility device to help them get about.

We wear this when we bike, scoot, or skate to protect our brains!

We can put these on our handlebars to light up our route when rolling. They also help drivers see us.

This has two wheels that we move by pedaling while we sit on a seat.

"We always wear our helmet to protect our brains and keep both hands on our handlebars to stay in control"

A vehicle that gives lots of students rides to and from school together.

We ride with one or more classmates and friends in a car.

Where people walk and slowly roll, separated from cars on the street.

These adults help us cross the street near school.

Some of us use this to roll, rather than walk. People who use these are still pedestrians!

This has a handle bar, place to stand with one foot, and two or more wheels. We move this by pushing with one foot off the ground.

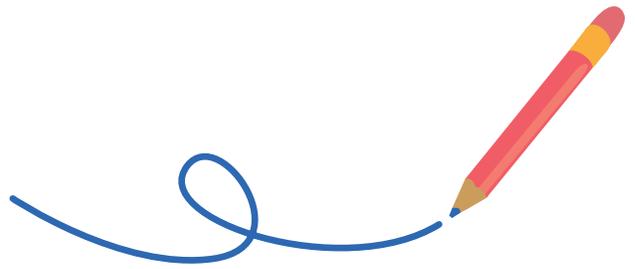

A red octagon that tells all of us to STOP and look, even if we are walking or rolling!

Where we cross the street.

## Draw yourself walking or rolling!

Walking and Rolling are fun activities that can be done year round! Ask your friends and family members to join you outside as you walk and roll to explore your neighborhood.

**Build your safety skills: Walking**

# LET'S WALK IT OUT

Walking is a fun way to spend time outside and get around. **Show us what you know about how to be a safe pedestrian.**

# HOW DID the PEDESTRIAN CROSS the ROAD?

**Crossing the street gets us to the other side!**

.....  
**Always cross at corners or at a marked crosswalk. This is where drivers expect to see you.**  
.....

**Look for crossing signals, like the hand or walking person.**

This signal tells us to **STOP**.

This signal tells us to **WALK**, only once we've checked that it's safe.

This signal tells us to stop if we have not started in the crosswalk yet, or to quickly get to the other side without running if we are already in the crosswalk.

Cross with your head up, looking around.

## Challenge!

Can you make  
this into a  
dance?

Practice this rhyme to remember how  
to cross the street safely:

1

Stop every time  
at the edge of  
the street

2

Use your  
head before  
your feet

3

Make sure  
you hear  
every sound

4

Look left,  
look right,  
look all  
around

When it's clear of cars  
or the drivers have  
stopped their cars, then  
you can go!

# WALKING WORD SCRAMBLE

Mohammad is ready to go to school.  
Help him reveal these important  
safety tips so he stays safe on his walk.

**CAN YOU SOLVE THE PUZZLE?**

- 1 Stop. Look left, right, and left again to look for **RTIF AFC** before crossing the street.
- 2 Before crossing the street, make eye contact with **VIRE SRD** to make sure they see you. Wait for cars to **TSPO** before you walk.
- 3 When possible, always walk on **IDKALWES**. If there is no sidewalk, walk on the left side of the street **TGAIANS** traffic.
- 4 Always stop at stop **SSING** and stop **GSIH LT**.
- 5 Wear **HTRIGB** clothing to be seen more easily on your walk to and from **OLSOCH**.

# LET'S ROLL WITH IT

Biking is a fun way to spend time outside and get around. **Test your knowledge of bikes and how to roll safely!**

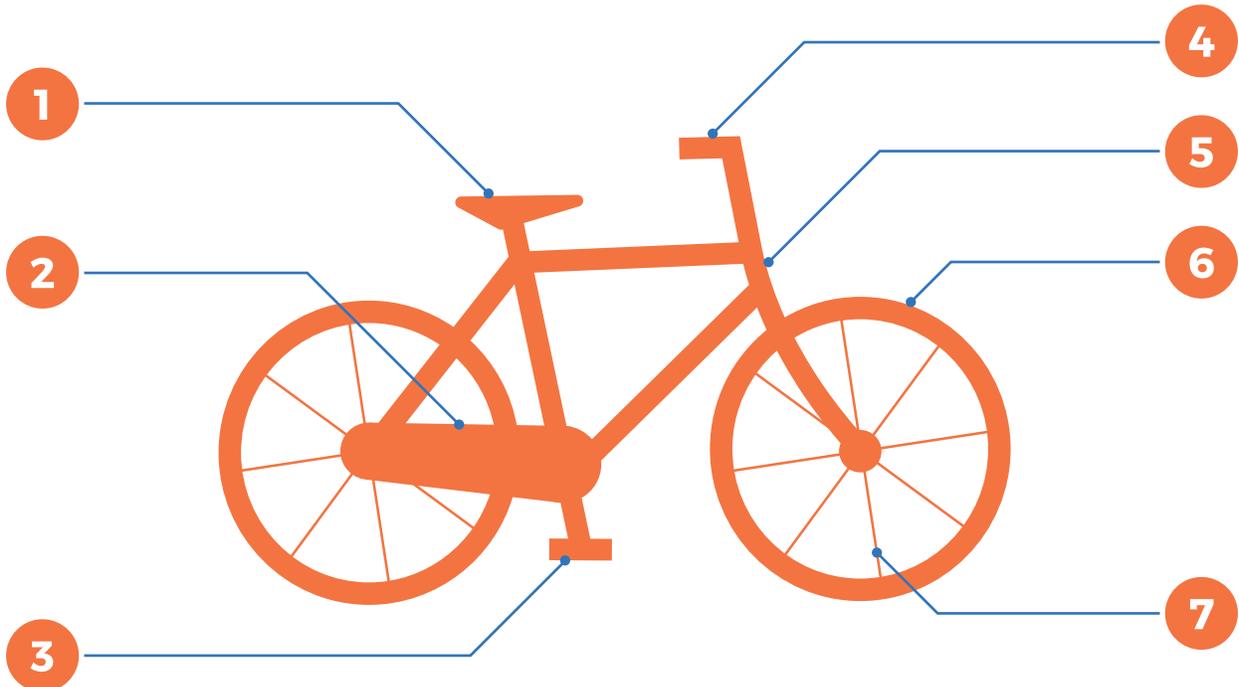

# LABEL *the* BIKE PARTS

Can you help Isabel learn about her new bike?

FILL IN THE BLANKS WITH THE CORRECT BIKE PARTS.

## Brake Time! ✓

Did you know there are two different types of bicycle brakes? Check the type of brakes that you have on your bike or that you have seen before.

- Backpedal Brakes:** When you press backwards on your pedals, your wheels will stop turning.
- Handlebar Brakes:** When you squeeze the brakes on your handlebars, your bike will stop.

# CHECK IT BEFORE YOU RIDE

## Helmet Fit Check

Do you know how to properly fit your helmet? Put your helmet on your head. Then, match these steps with the images below by **DRAWING A LINE FROM THE IMAGE TO THE HELMET FIT CHECK STEP.**

1

### Eyes

**Look up.**

Check: can you see the brim of your helmet?

2

### Ears

**Buckle your helmet.**

Check: Do the straps form a "V" beneath your earlobes?

3

### Mouth

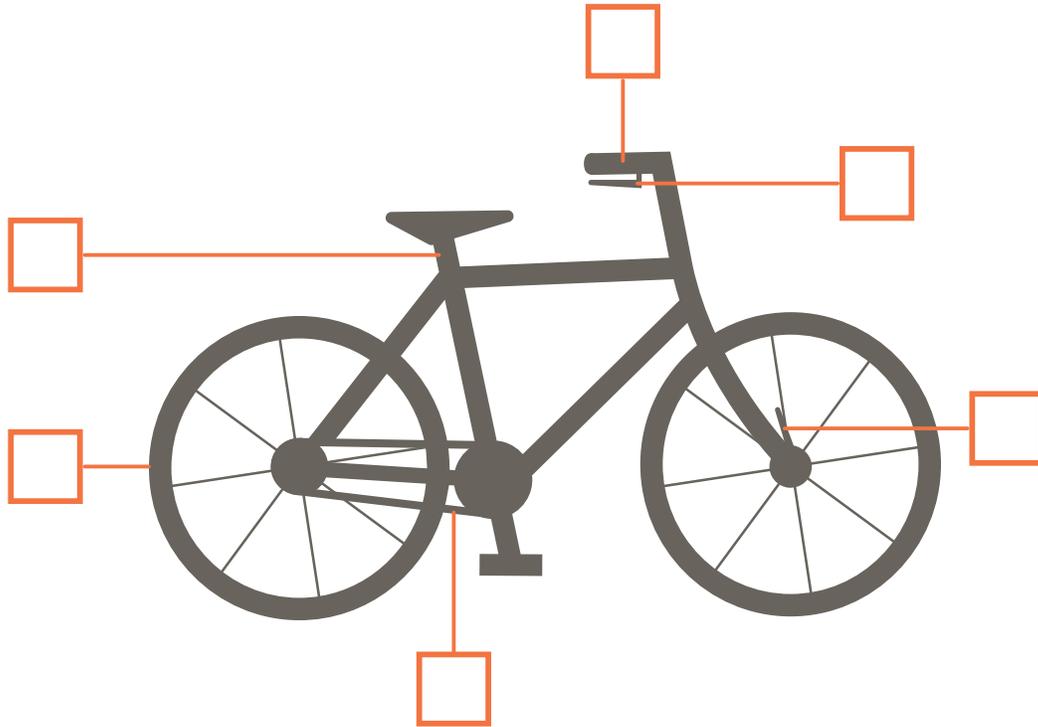

**Open your mouth.**

Check: Is your chin strap snug when your mouth is open?

# ABC QUICK CHECK

Check your bike to make sure it's safe and in good condition to ride before you jump in the saddle. **FOLLOW THE ABC QUICK CHECK STEPS BY MATCHING EACH STEP'S ORANGE LETTER TO THE RIGHT PLACE ON THE BIKE.**

**A** AIR: do your tires have enough air when you squeeze them?

**B** BRAKES: When you squeeze, do they stop the tires?

**C** CHAIN: Is your chain threaded over the sprocket and properly oiled?

**D** QUICK RELEASE: Are your quick release levers on tight so the wheel doesn't come loose?

**E** CHECK YOUR SEAT: is it a proper height for you to pedal?

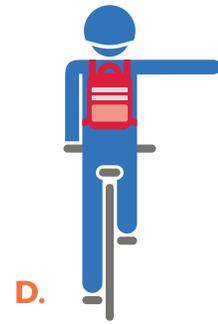

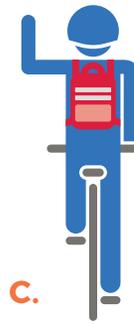

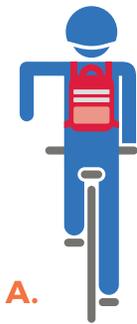

**F** CHECK YOUR HANDLEBARS: Do you have a light and/or bell mounted?

# USING HAND SIGNALS

## for SAFETY

Hand signals are important to use when you are rolling. They tell others on the street where you are going to move next.

Imagine this person is bicycling forward, and you are looking at the back of the person. LABEL THE HAND SIGNALS WITH THE PROPER MEANING.

## RULES OF THE ROAD

Older students! Have you and your parents or guardian talked about riding on the street safely? If you're ready to ride on the street, show us what you can do with this challenge.

**Challenge!**

# EXPLORE YOUR ROUTE

Before you grab your backpack and tie your shoes, do you know the way to walk or roll to school? Plan your route before you leave!

Your route is made up of the streets you will walk on, crosswalks you will cross, and the turns you will make to arrive at school.

**Let's get started planning your route.**

# MAPPING *your* ROUTE *to* SCHOOL

Use these steps to get started planning how you would walk or roll to school:

- 1 Think about where you live and where your school is.
- 2 Think about a safe route to school, using the tips below! Then describe your route out loud.
- 3 Draw the route you would take. If you're stuck, work with your parent to look at a map and plan it together.
- 4 Color your map, adding in any of these objects.

**Not sure of the best way to get to school? Look for routes with the following items for a more comfortable trip:**

- ★ Sidewalks or paths
- ★ Cars driving slowly
- ★ Not many cars
- ★ Stop lights & pedestrian crossing signals
- ★ Clearly marked crosswalks
- ★ Other people walking or biking
- ★ Bright lighting when it's dark
- ★ Neighbors watching out for each other

**Do you see any of these objects along your route? ADD THEM TO YOUR MAP.**

If you cannot walk to school, plan your route to a park, the library, or a friend's house!

# READY *to* TRY IT OUT?

Are you ready to try out your walking or rolling route?

**CHECK THE BOXES FOR WHAT YOU HAVE DONE TO GET YOURSELF READY!**

- 
- I've learned basic traffic safety skills by completing pages 6-24 of this workbook!
  - I've mapped out and drawn my route.
  - I've talked with my parent or guardian about my route. We have planned to do it together.

Lace up those shoes, strap on a helmet (if you're rolling), and let's go explore this route! Keep your head up, looking and listening along your way.

**USE THE BINGO OR SCAVENGER HUNT SHEETS ON THE NEXT PAGES.** Stop to fill out your bingo or scavenger hunt on the sidewalk, or out of the street.

## Play B-I-N-G-O on your route adventure!

While you are walking or rolling along your route, have your parent help you navigate. If you are biking, scooting, or rolling in some other way, ask your parent to hold onto the BINGO card. There are two BINGO cards so you and a friend, parent, or sibling can play, too! Here's how:

- ★ Stop at every corner, crosswalk, alley, and driveway to look for cars.
- ★ When you are stopped, look at your BINGO sheet. Do you see any of the things shown on your BINGO sheet, but in real life? If so, place an "X" over the image.
- ★ Once you find all the things in one line (vertical, horizontal, or diagonal), you can call out BINGO!

HOORAY! Do a safety dance once you get to school to celebrate winning BINGO and following your route!

# RIDE THAT BUS

If you can't walk or roll,  
riding the bus is a great  
way to get to school!

**Bus riders: You're  
a traffic buster  
and a green hero!**

# WHY WE RIDE

Riding the bus gives you time to be with friends before and after school or enjoy reading a book. When you take the bus instead of ride in a family car, you help lower the number of cars around school. Fewer cars around school means less traffic and cleaner air!

## Follow these tips to ride the bus safely.

### GOING TO SCHOOL

---

- ★ Leave home with lots of time to get to the bus stop before the bus comes.
- ★ Walk with your parent, a trusted adult, or sibling to the bus stop.
- ★ Stand at least three GIANT steps away from the curb when waiting.
- ★ Wait for the bus to come to a complete stop and for the stop sign paddles to pop out before getting closer.
- ★ Once you are on the bus, stay seated and facing forward.

### COMING HOME

---

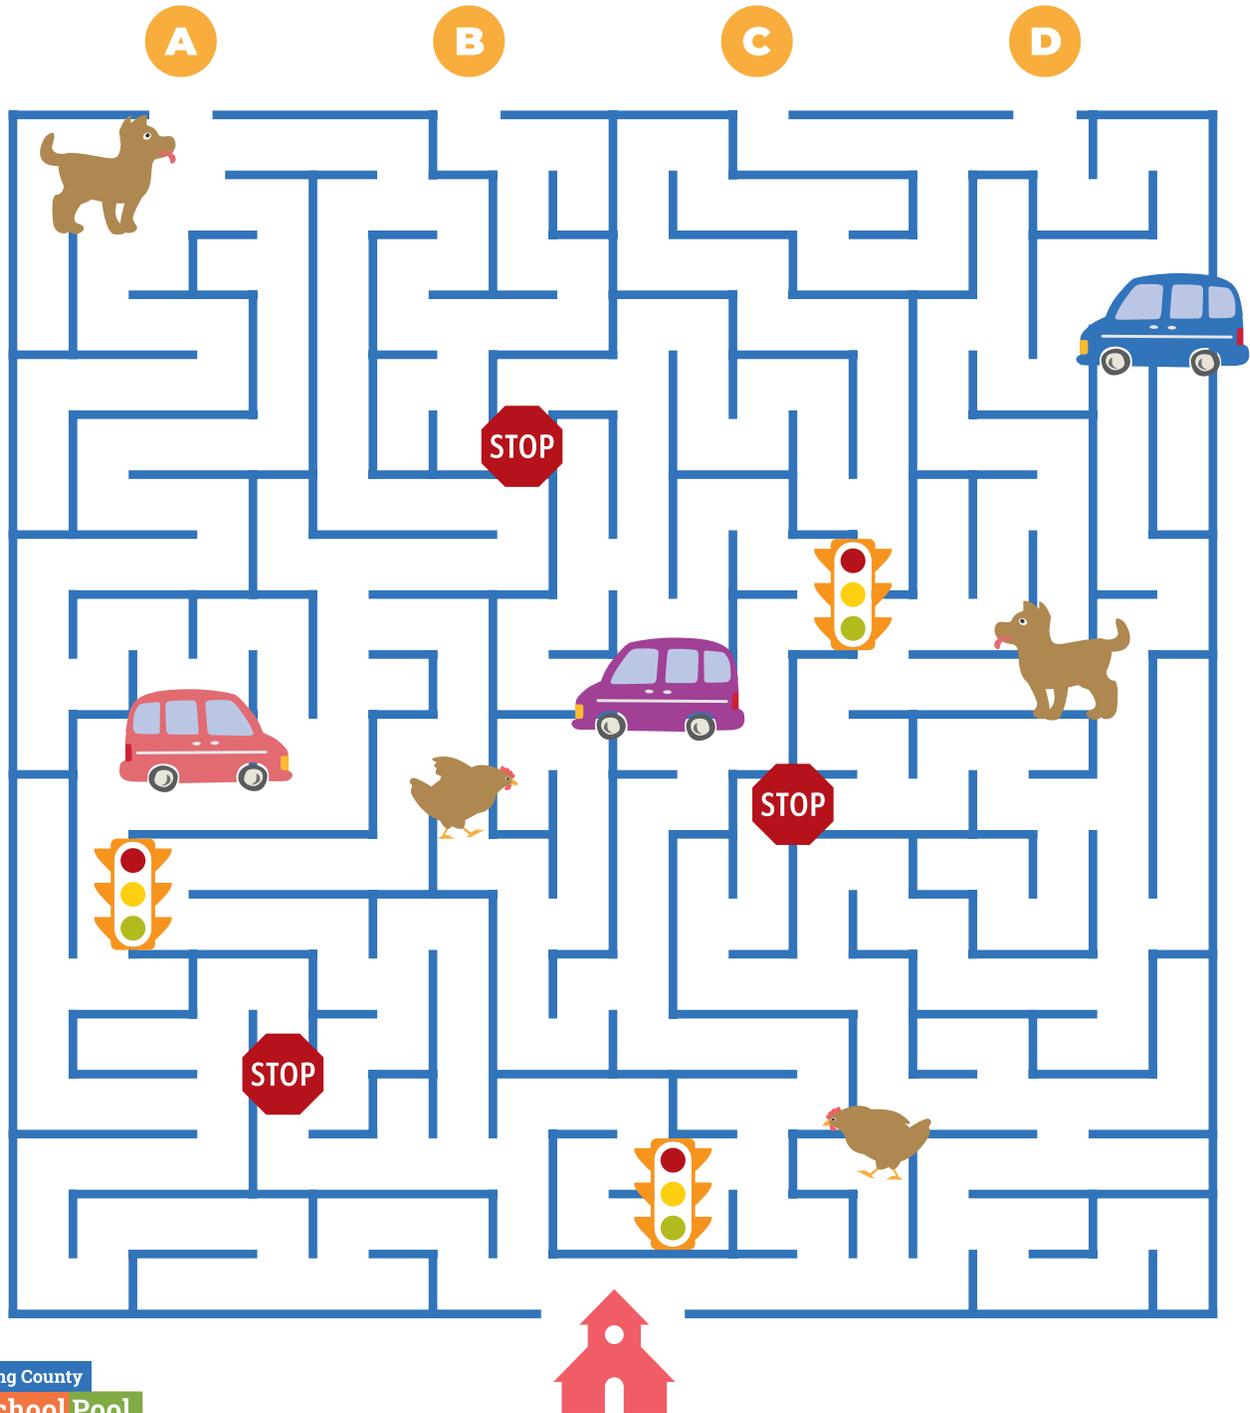

- ★ First, find your bus. If you aren't sure which one is yours, ask your teacher or another school staff to help.
- ★ Hop on the bus, find your seat, and face forward.
- ★ When it's your turn to get off, wait for the bus to come to a complete stop.
- ★ Once your bus driver gives you the okay, stand up and exit the bus.
- ★ If you need to cross the road, cross in front of the bus only once your bus driver gives you the okay to cross.

- ★ Always follow the bus driver's directions. Their job is to keep you safe on the way to and from school!

# DRIVE *the* BUS

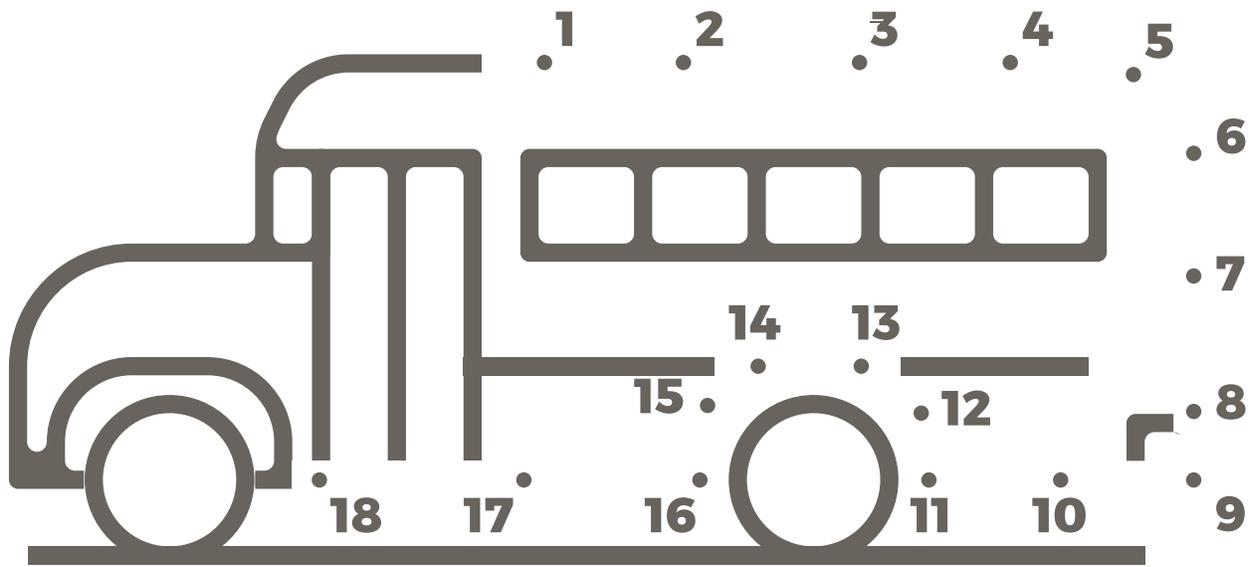

Yossi and Jayden are the first to get on their buses each morning and greet their friends as they get on along the way.

# CONNECT *the* DOTS

Then, color in the bus!

# CARPOOL TO SCHOOL

**Sharing is Caring. And so is carpooling!**

**When we carpool to school with our classmates and friends, we help care for the environment and each other!**

**How is that?**

**It helps my mom get to work when I get a ride to and from school with you. It also means one less family car driving and polluting near school. PLUS! I get to spend time with you!**

# READINESS CHECKLIST

**Before walking alone to school, students should be confident in:**

## Following walking rules

- Look left, right, and behind before crossing at corners
- Follow traffic signals
- Use paths and sidewalks, where provided

## Walking predictably

- Walk - don't run - across the street
- Watch for cars turning or pulling out of driveways

Looking for more information to help you assess your student's readiness? Check out Mary L. Pulido, Executive Director of the New York Society for the Prevention of Cruelty to Children in the Huffington Post article, "When Are Children Ready to Walk Alone?" here: [www.huffingtonpost.com/mary-l-pulido-phd/when-are-children-ready-to-walk-alone\\_b\\_7063318.html](http://www.huffingtonpost.com/mary-l-pulido-phd/when-are-children-ready-to-walk-alone_b_7063318.html)

## Having a safety plan

- Develop a plan with your parent or trusted adult in case of a problem while walking

## Staying aware

- Don't text or talk on cell phones while walking
- Don't listen to music with headphones while walking

**Depending on the age and experience level of your child, you may want to join them on their walk or roll to school or in the neighborhood.**

## **Before biking alone, students should be confident in:**

### **Following biking rules**

- Ride on the right side with traffic
- Stop at stop signs and look left, right, and behind
- Use proper hand signals when turning

### **Riding predictably**

- No swerving in and out of parked cars
- Make eye contact with drivers at intersections
- Ride in a single file line when biking in groups

### **Having a safety plan**

- Develop a plan with your parent or trusted adult in case of a problem while biking

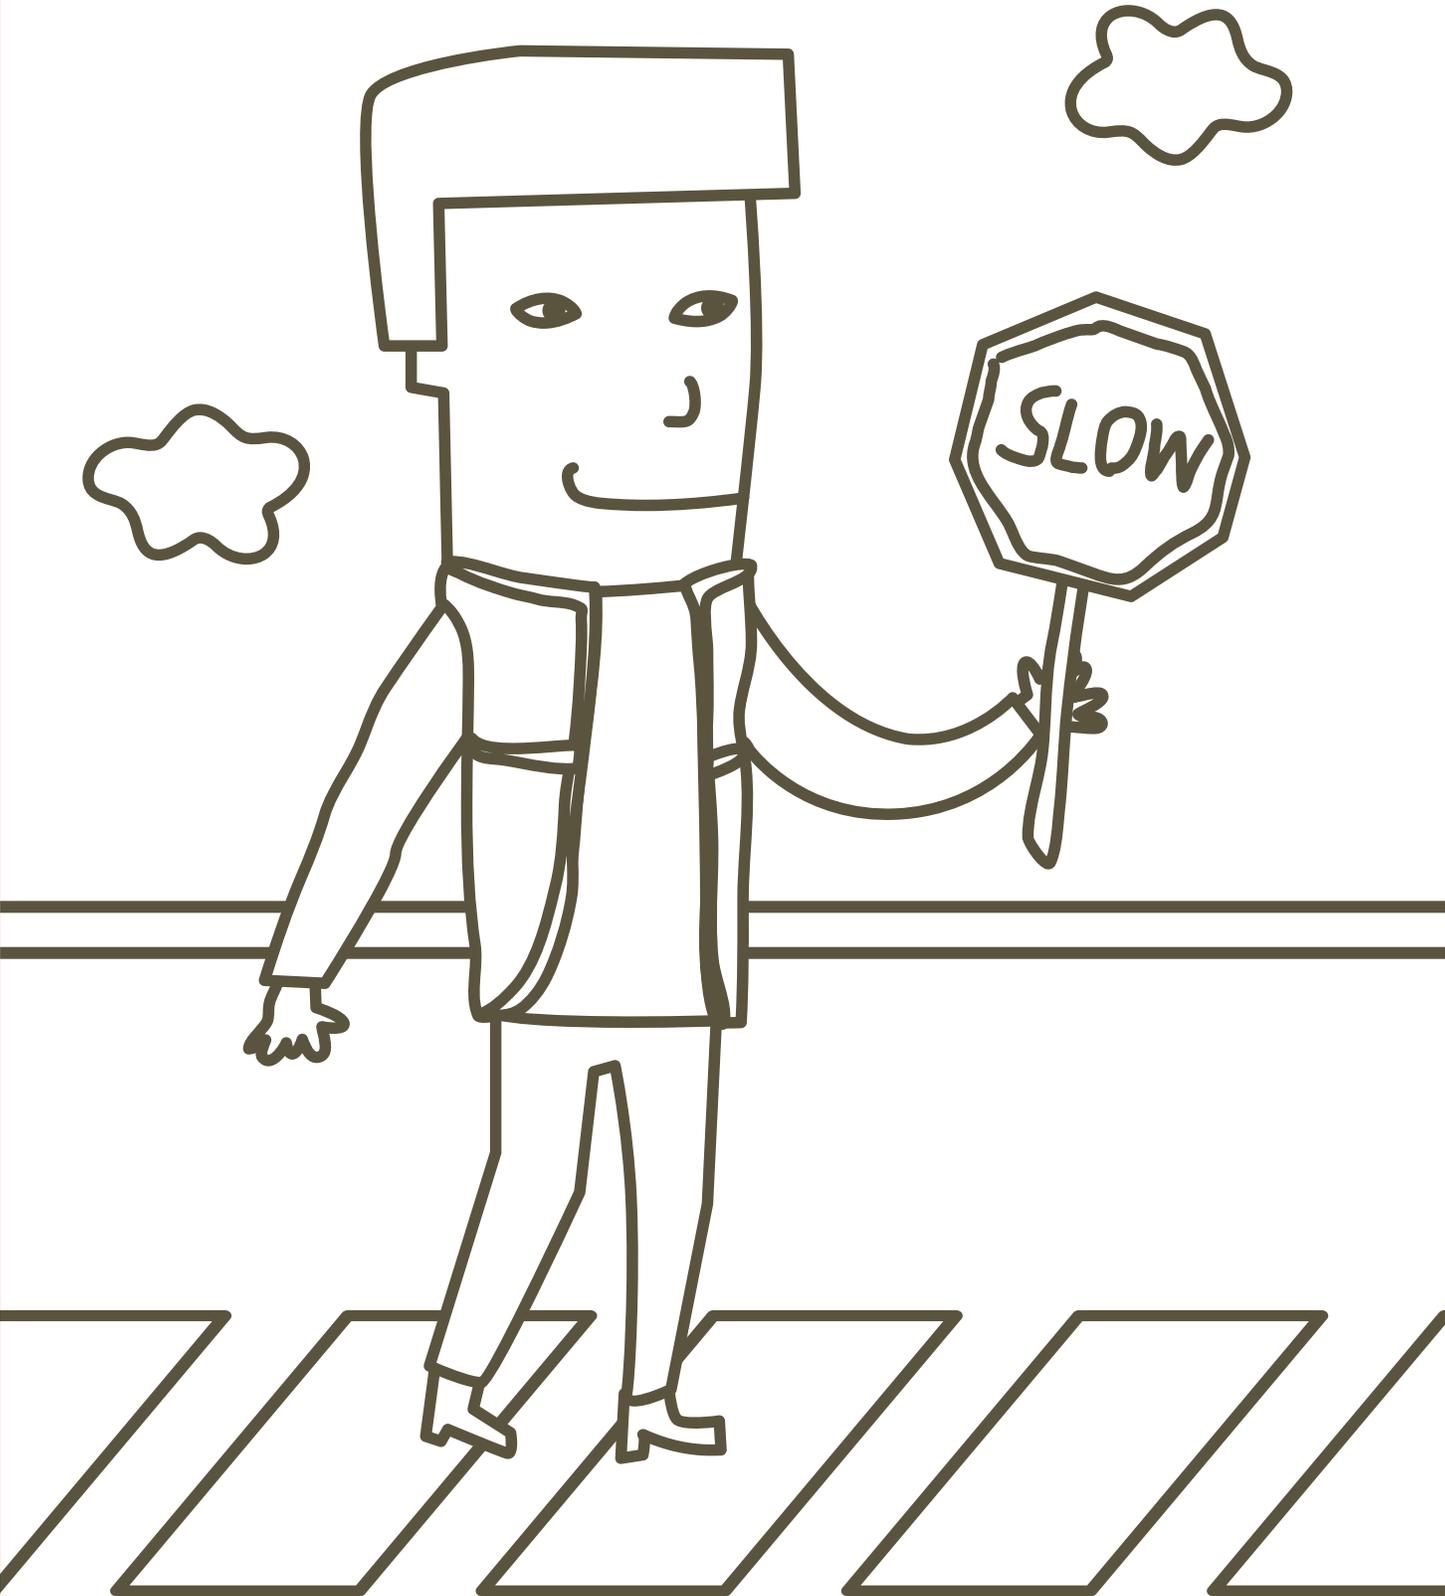

### **Having the right gear**

- Wear a helmet
- Have air in the tires and check brakes
- Have white lights in the front and red lights in the rear of the bike

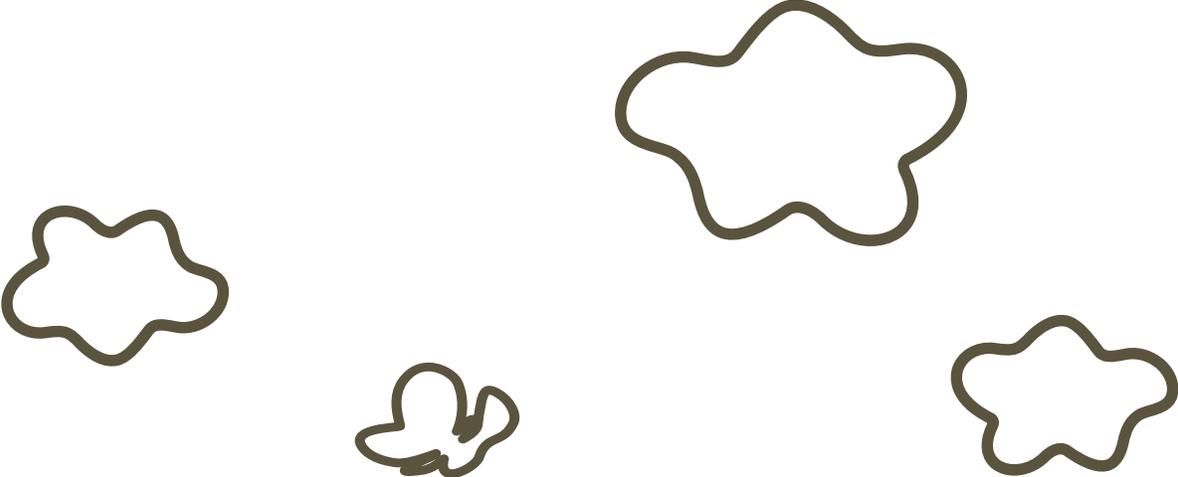

### **Staying aware**

- Don't text or talk on cell phones while biking
- Don't listen to music with headphones while biking
